Winter	All consumption	\$1.53
Summer	All consumption	\$6.12

Applies to irrigation-only taps.
 Winter billing period begins November 1 through
 April 30. Summer billing period begins May 1
 through October 31.

B. Treated Water Fixed Charges

Fixed Charges
 Service Charge (by meter size)

<u>Tap Size</u>	<u>Monthly</u>
5/8" & 3/4"	\$17.90
1"	\$25.70
1 1/2"	\$49.86
2"	\$83.38
3"	\$178.47
4"	\$311.75
6"	\$693.67
8"	\$1,227.58
10"	\$1,914.26
12"	\$2,754.53

C. Private Fire Protection Charges

Sprinkler Systems and Standpipes

<u>Tap Size</u>	<u>Monthly</u>
1 Inch	\$3.78
2 Inch	\$6.31
4 Inch	\$9.74
6 Inch	\$13.92
8 Inch	\$24.36
10 Inch	\$34.80
12 Inch	\$55.68
16 Inch	\$139.20
Fire Hydrants	\$13.92

D. Notes

Applicability: Charges under this schedule are applicable to all licensees for treated water service or private fire protection service inside the limits of the City and County of Denver.

Payment: Bills are due and payable to Denver Water upon issuance. Monthly bills are delinquent 20 days after the billing date. Late charges will be assessed per Denver Water policy.

Single-Family AWC: A customer's average winter consumption (AWC) is used to determine the tier 1 threshold. The AWC is calculated by averaging each customer's billed monthly water use from January through March, which is a way of determining essential indoor water use. Denver Water has set the tier 1 minimum threshold at 5,000 gallons, and a maximum of 15,000 gallons. For example, if the customer's AWC is less than 5,000 gallons, tier 1 is 0 to 5,000 gallons. If the AWC is over 15,000 gallons, tier 1 is 0 to 15,000 gallons. Volume rates are applied to billed monthly usage.

10"	\$1,914.26
12"	\$2,754.53

C. Notes

Applicability: Charges for treated water service under this schedule are applicable to entities (i.e. municipalities, quasi-municipal districts and water companies outside the limits of the City and County of Denver) served under distributor agreements whereby the entity operates and maintains water systems to supply individual licensees. Denver Water bills distributors for water delivered through master meters. Each distributor establishes charges for its individual licensees for water service.

Payment: Bills are due and payable to Denver Water upon issuance. Monthly bills are delinquent 20 days after the billing date. Late charges will be assessed per Denver Water policy.

Single-Family AWC: A customer's average winter consumption (AWC) is used to determine the tier 1 threshold. The AWC is determined by averaging the customer's monthly water consumption on bills dated January, February and March, which is a way of determining essential indoor water use. Denver Water has set the tier 1 minimum threshold at 5,000 gallons and a maximum of 15,000 gallons. For example, if the customer's AWC is less than 5,000 gallons, tier 1 is 0 to 5,000 gallons. If the AWC is over 15,000 gallons, tier 1 is 0 to 15,000 gallons. Volume rates are applied to actual monthly usage.
